Agenda

• Welcome & Introductions
• Process Overview Review
• SCFMP - MVC Design Manuals
• Open Discussion and Thoughts
• Current Issues / Concerns Update
• Important Online Resources
• GW Community Engagement Contact Information
• Next Working Group Meeting Date
Process Overview Review

- Create a format for discussion, information sharing, and problem-solving
- Cooperative and beneficial dialogue and shared analysis on opportunities to improve operations and community relationships
- Working Group focus on collaboration around plans and issues related to:
  - Physical campus facilities
  - Existing and proposed development,
  - Landscaping
  - Renovations
  - Transportation and Parking
- Alignment with roles, responsibilities and ground rules for Working Group
SCFMP - MVC Design Manuals

Strategic Campus & Facilities Master Plan (Reviewed on 4/14)

- Architecture Design Manual
- Landscape Design Manual
- Streetscape Design Manual
Architecture Design Manual

Guiding Principles

SCALE + FORM
Maintain the residential scale of campus by reducing the volume of large buildings with smaller and more domestic-scaled massing.

RESPOND TO EXISTING TOPOGRAPHY
Design buildings to work with, and take advantage of existing site topography, while ensuring universal accessibility.

ARCHITECTURAL CHARACTER
Design new buildings to complement the existing architecture on campus. Honor and maintain the integrity of buildings that display significant historic character.
Landscape Design Manual

Guiding Principles

IDENTIFY
Give distinction to the campus while connecting to the fabric of Mount Vernon

COHERE
Reduce fragmentation and create coherence through a consistent material palette, spatial organization, and furnishings.

DIVERSIFY
Provide a diverse range of scales, programs, and thermal comfort for all seasons.

SUSTAIN
Integrate water management and sustainable initiatives throughout campus.

ENGAGE
Engage students, faculty, staff, and visitors with one another

PROMOTE ACCESSIBILITY
Achieve universal accessibility throughout Mount Vernon to meet and exceed ADA accessibility standards.

Key Landscape Areas

• Mount Vernon East Quad
• Hillside Gardens
• West Quad
• Perimeter Areas
Streetscape Design Manual

Key Issues

• Pedestrian routes are unclear and circuitous

• Lack of universally accessible pedestrian paths and impediments for pedestrians with mobility issues or in wheelchairs

• Oversized and poorly designed roadways around existing quad

• Lack of sidewalk signage and lighting along most roadways

• Chronic flooding of low-lying areas due to high degree of runoff from roadways

Guiding Principles

PRIORITIZE THE PEDESTRIAN
Ensure pedestrian safety by transforming existing vehicular streets into pedestrian walkways that also function as emergency vehicle access paths.

REINFORCE CONNECTIONS TO NATURE
Improve health and wellness initiatives on campus by introducing visible entrances and walking paths into and across campus open spaces. Provide comfortable seating areas and appropriate lighting and signage along walkways and shared roads.

REALIZE EQUITY + SUSTAINABILITY GOALS
Integrate universal design principles to provide accessible and safe routes across campus. Utilize porous paving and existing topography to improve stormwater management on campus.
Open Discussion and Thoughts

Current Issues/Concerns Update

Actions items from 2/25/21 Quarterly Community Meeting:

- Hand Chapel mechanical equipment noise - **UNDERWAY**
- Landscape buffer along W Street - **UNDERWAY**
- Fence/gate downstream from Hand Chapel - **UNDERWAY**
- Noise from athletic field adjacent to West Hall – **UNDERWAY**

Follow-Up Action Items from Working Group Meetings:

- Post presentation materials and Working Group contact list - **COMPLETE**
- Compile past historical campus plan materials for Working Group reference - **UNDERWAY**
- Include Vern community access in Transportation Working Group discussion - **COMPLETE**
- Identify a Working Group Co-Chair to represent the community at the 4/8/21 meeting - **COMPLETE**
- Identify strategies to address air horns and directional placement of speakers - **UNDERWAY**
- Incorporation of large trees (i.e. mature) in lieu of young trees that requires years to develop – **UNDERWAY**
- Address evasive and management of landscaping and vegetation adjacent to Berkeley Terrace – **UNDERWAY**

4/14/21
