Re: Z.C. Case No. 06-11/06-12 – GW Foggy Bottom Campus Plan
Application for Campus Plan Amendment, Further Processing

Dear Chairman Hood and Members of the Commission:

Enclosed please find an application from the George Washington University (“University”) for approval for an amendment to the 2007 Foggy Bottom Campus Plan and further processing approval to permit university use of leased space on two floors in a building proposed to be constructed by Hillel at the George Washington University (“Hillel”) at 2300 H Street NW (“Property”).

Background

The Property is located in Square 42 at the intersection of 23rd and H Street NW. The Property has been used by Hillel as a place of worship since the mid-1980s. Hillel proposes to demolish the existing improvements and construct a new four-story building (“Project”). The Project is the subject of BZA Application No. 18764, which is scheduled for public hearing on June 3, 2014. In order to help finance the cost of constructing the new facility, Hillel proposed to lease two floors of the new facility to the University, containing approximately 9,150 square feet of gross floor area. For the Commission’s convenience, the building plat and an excerpt of the plans are attached as Exhibit C and Exhibit D.

Summary of Campus Plan / Further Processing Application

As shown on Exhibit A, the Property is located within the boundary of the Campus Plan and is therefore included in the Campus Plan by virtue of its location within the campus boundaries. See Campus Plan / PUD Order at 12 n.5. Accordingly, the University’s requested amendment is limited to designating the permitted categories of university use for the Property.
The University intends to lease and use the upper two floors of the Project for campus-related student life space that may include student organizations, auxiliary services, and student activities, and academic uses for classroom space and faculty/staff offices (the “University Use”). The University Use will occupy approximately 9,150 square feet of gross floor area. Accordingly, the University requests an amendment to the Campus Plan to designate the Property for either campus life or academic/administrative uses. The University also requests further processing approval under the amended Campus Plan to permit such use upon the completion of the Project.

The proposed University Use meets the standards of Section 210 of the Zoning Regulations as set forth below.

Section 210.2: The Use is Located so that it is Not Likely to Become Objectionable to Neighboring Property

The proposed use is minor, and will not generate any objectionable impacts on the surrounding residential community. The proposed University Use will not result in an increase in student population or intensity of use on the campus—the small amount of space is merely decompression space that will accommodate programs and initiatives that are compressed for space. Similarly, the University Use will not generate any objectionable traffic or parking impacts, because the users of the space will already be located on the campus. Finally, the University Use is located within the building, which is itself within the Campus Plan boundaries, and will not generate noise or other objectionable impacts on the surrounding residential neighborhoods.

Section 210.3: Compliance with Maximum Bulk Requirement

The University will remain in compliance with the maximum bulk requirement. The University Use will increase the total FAR of the campus by 0.007 FAR, which is a de minimis increase. The total FAR for the residentially-zoned portions of the campus upon the addition of the University Use and completion of all other development approved by the Zoning Commission will remain at 3.16 FAR, which is well within the permitted FAR of 3.69 approved in the Campus Plan / PUD.

Section 210.4: Relationship to the Campus Plan as a Whole

The proposed mixed-use campus life and academic/administrative designation is consistent with the Campus Plan as a whole, including the use designation of adjacent and nearby properties. Again, the Property will be used for campus-related student life and academic uses that include student organizations, auxiliary services, student activities, classroom space, and faculty/staff offices. The proposed mix of campus life and academic/administrative uses reflects the location of the Property near both residential/student life and academic buildings. The Property is adjacent to Amsterdam Hall, a residence hall, and proximate to Fulbright Hall,
another residence hall, and the Lerner Health and Wellness Center. However, the Property is also close to a number of existing and proposed academic buildings, including Ross Hall, the under-construction Science and Engineering Hall, and a proposed academic/administrative site across 23rd Street in Square 56.

Section 210.7: Consistency with the Comprehensive Plan

The proposed University Use is consistent with the Comprehensive Plan. The use is consistent with the Property’s designation in the Institutional land use category. Furthermore, the University Use arises out of a partnership with Hillel that will promote and sustain Hillel’s service to the surrounding community. Such partnerships are encouraged pursuant to Section EDU-3.2 of the Comprehensive Plan. Moreover, the partnership with Hillel will specifically support community improvement and contribute to the District’s culture in accordance with Policy EDU-3.3.2.

Section 3104: Special Exception Standards

For reasons similar to those set forth above, the proposed University Use also meets the general special exception standards of Section 3104. The proposal locates university use within the boundaries of the Campus Plan, which is consistent with the general purpose and intent of Section 210 as well as the specific goals of the 2007 Foggy Bottom Campus Plan / PUD. Furthermore, the use is relatively small and is located near the heart of the campus, away from surrounding residential properties. Accordingly, it is unlikely to affect adversely the use of neighboring property in accordance with the Zoning Regulations and Zoning Map.

Conclusion

For all of the reasons set forth above, the University respectfully requests that the Commission approve an amendment to the Campus Plan as well as further processing of that Plan to permit the University Use on the Property.

Conclusion

The University looks forward to presenting the special exception application at an upcoming public hearing. Regarding the minor modification of the Campus Plan / PUD Order that is related to this application, the University proposes that the Commission schedule the minor modification for an upcoming public meeting in the near future solely for the purpose of confirming that the requested modification is minor. The Commission’s vote regarding the substance of the minor modification could then be held in abeyance until the vote on this campus plan amendment and further processing request.
