Space Migration - Background

- Migration of uses from Rice Hall will be accomplished no later than December 2018
- Foggy Bottom administrative space requirements are decreasing:
  - Change in space planning guidelines
  - Increase in telecommuting (& shared workspaces)
  - Improved strategies for space use
  - Effective use of other GW campuses
Space Study - Analysis

• Reduced future space needs
  • Address departmental functions and adjacency requirements
  • Meet requirement to be in Foggy Bottom vs other campuses
  • Future growth or reduction in staffing

• Consolidation of administrative functions

• Shared workspaces and adjacencies that facilitate collaboration and right-size space
Space Study - Outcomes

• Affected departments/units will be relocating to spaces on all three campuses

• Administrative functions will have reduced footprint in Foggy Bottom

• Primary relocation destinations for Rice Hall occupants:
  • Old Main
  • 1918 F (current Alumni House)
  • MVC - Academic Building
  • VSTC – Enterprise Hall & Research Place

• Other administrative users will relocate to consolidate within existing office spaces in other buildings
Space Study - Outcomes

• Existing occupants of Old Main & 1918 F Street will also relocate as a part of this project
  • Many groups are smaller in size and will relocate to space within existing academic buildings
  • Samson Hall (vacated by moves to Science & Engineering Hall) will be used to accommodate some larger departments/units
• Some academic departments will also relocate to the Mount Vernon Campus
• Psychology (1st floor user) will return to Old Main following renovations
